EXPERIENCE AND EXPERTISE

Mrs Youngson has been employed as a forensic biologist since 2000 and joined Keith Borer Consultants in 2019. She was a Director at Haywards Associates, until it ceased trading.

She specialises in DNA profiling, blood pattern analysis, body fluid analysis and also alcohol-related casework.

Mrs Youngson has prepared reports for hundreds of cases and given evidence at Magistrates' and Crown Courts throughout England and Wales, the High Court in Scotland and in Gibraltar.

She is a Member of the International Association of Bloodstain Pattern Analysts (IABPA) and has successfully completed basic and advanced level training in courses in bloodstain pattern analysis.

Keith Borer Consultants operates a Continuous Professional Development Scheme for all staff. Within this scheme Mrs Youngson undertakes regular training and development in the field of Forensic Biology, including attending conferences and relevant training courses.
