

LUKE WILKINS

DIGITAL FORENSIC INVESTIGATOR

QUALIFICATIONS

- Master of Engineering (Computer Science), First Class Honours, Durham University
- Member of British Computer Society

CAREER OVERVIEW

Mr Wilkins is a Digital Forensic Investigator, based at the Durham office.

EXPERIENCE AND EXPERTISE

He was awarded a Master of Engineering degree with First Class Honours in Computer Science from Durham University. He joined Keith Borer Consultants in 2018 as a Digital Forensic Investigator and specialises in the forensic examination of computers, including cases involving indecent images of children, the recovery of deleted information, and analysis of user activity.

Mr Wilkins has successfully completed training on the use of forensic software, including the X-Ways Forensics Course. He has received courtroom training and is also a Member of the British Computer Society.

Keith Borer Consultants operates a Continuous Professional Development Scheme for all staff. Within this scheme, Mr Wilkins undertakes regular training and development in the field of Digital Forensics, including attending conferences and relevant training courses.
