CAREER OVERVIEW

Mr Scott was a serving officer in the Norfolk Constabulary for twenty-nine and a half years, the last fifteen years being involved in roads policing duties, including seven years as a full-time collision investigator. He joined Keith Borer Consultants in 2021.

EXPERIENCE AND EXPERTISE

During his police service, Mr Scott's prime responsibility was to attend scenes of fatal and serious injury collisions, including those involving police vehicles, and to collect and evaluate any potential evidence in order to endeavour to reconstruct the events for Magistrates', Crown and Coroners' Courts. He has regularly given evidence in these courts. Mr Scott also peer reviewed colleagues' reports prior to publication.

Mr Scott is a keen motorcyclist, having held a licence for over 29 years and holds the Gold award from RoSPA. He also holds a licence to drive large goods vehicles (LGVs) and is currently an examiner for IAM RoadSmart.

Mr Scott has received training in:

- Forensic Investigation of Light Bulbs (Sheffield Hallam University)
- Police Tyre Technical (Michelin)
- Fast Roads Training (Norfolk Constabulary)
- Police TPAC (Norfolk Constabulary)
- National Drug Influence Recognition and Field Impairment Testing (Norfolk Constabulary)
- Basic Surveying (Korec Ltd)
- Riegl Laser Scanners and RiSolve Software (3D Laser Mapping Ltd)
- Vericom Accelerometers (AiTS Ltd)
- Photoptic Light Meters (Norfolk Constabulary)
- Digital Drivers Hours Recording Equipment
- Tachograph Chart Analysis and Enforcement Regulations (Norfolk Constabulary)
- Level 2 Award Electric/Hybrid Vehicle Hazard (IMI)
- Management for Emergency and Recovery Personnel (City College Norwich)

Keith Borer Consultants operates a Continuous Professional Development Scheme for all staff. Within this scheme Mr Scott undertakes regular training and development in the field of Forensic Collision Investigation, including attending conferences and relevant training courses.
